Icy stretches likely to form on Monday morning

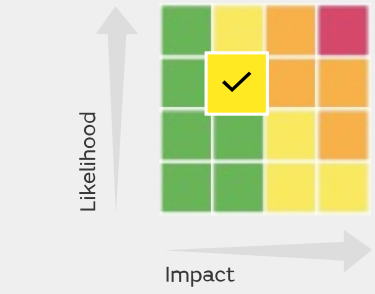
What to expect

- Some injuries from slips and falls on icy surfaces
- Probably some icy patches on some untreated roads, pavements and cycle paths

Further details

Following recent wet conditions surfaces are likely to remain wet into Monday morning and with a cold night icy stretches will readily form on untreated surfaces.

A few rain, sleet and snow showers may still affect these areas overnight but ice remains the main hazard.



Medium likelihood of low impacts
